WORK EXPERIENCE

Programmer

Trafalgar Travel Ltd.

10/2023 - 10/2024

Kingston, Jamaica

- Developed a mission-critical web application using Laravel, integrating robust back-end logic and seamless front-end components.
- Designed and implemented RESTful APIs, ensuring efficient data communication between server-side logic and user interfaces.
- Built responsive, user-focused applications using ReactJS, enhancing interactivity and performance for manufacturing processes.

Freelance Software Engineer/ Tutor

The University of the West Indies

11/2021 - 10/2024

- Delivered full-stack solutions for diverse projects, utilizing modern frameworks like Vue.js, Python, and TypeScript.
- Implemented comprehensive monitoring solutions and developed intuitive dashboards to visualize real-time data.
- Guided students in Python fundamentals and advanced concepts, fostering skills applicable to industry standards.

Software Developer

RealDecoy Global Services

01/2023 - 07/2023

Kingston, Jamaica

- Developed modern web-based dashboards and integrated real-time alerting mechanisms using Vue.js and Tailwind CSS.
- Seamlessly integrated APIs to render dynamic data, streamlining industrial processes for improved efficiency.
- Created unit tests and conducted code reviews to ensure quality, reliability, and maintainability.

Python 1 Instructor

Caribbean Science Foundation

06/2022 - 08/2022

- Taught foundational Python programming and guided students in building Python-based projects.
